

Key Motivators that Prompt HR Software Change

Functionality

Not all solutions offer the same HR functionality. ELMO operates in the cloud and delivers a seamless integration of functionality and information across all HR activities. Consolidate data, manage completions and engage staff with an easy to use interface.

Support

The quality of support is crucial to the success of any HR system. ELMO clients have direct access to their designated Strategic Partnership Manager AND our technical support team – both based in Australia to improve response and resolution times.

Integration

Business and organisational change is constantly evolving. ELMO's fully integrated Talent Management Platform allows you to scale your solution to add new functionality as required by you. It also offers API integration with payroll systems, the ATO and SEEK.

Flexibility & Responsiveness

Our development roadmaps are driven by the needs of our HR clients. Each organisation has it's own existing workflows and business management practices. With ELMO, you don't need to change how to you do business to match our solution, instead we configure the solution to match your business.
